

Dejavoo P1

Countertop Terminal

5" HD Touchscreen & Physical Keypad:

Large color display with responsive touchscreen plus a secure keypad, making it easy for staff to navigate and customers to enter PINs.

Robust Connectivity:

Supports Ethernet and Wi-Fi for reliable countertop use (optional 4G cellular backup), ensuring continuous payment processing even if one connection goes down.

All-in-One Payment Acceptance:

Built-in EMV chip reader, magstripe swipe, and NFC contactless reader (for Apple Pay, Google Pay, etc.), so you can accept any major card or mobile wallet payment securely.

Fast Performance:

Powered by a high-speed processor (octa-core 1.5GHz) and ample memory, enabling quick transaction processing and screen responses

Integrated Printer:

Includes an internal thermal receipt printer for on-the-spot receipt printing, saving counter space and streamlining checkout

Secure & Reliable:

PCI PTS certified device with point-to-point encryption support, ensuring card data security. Its durable design is built for daily high-volume use.
