

Dejavoo P3

Wireless Terminal

Portable with 5" Touchscreen:

Compact handheld terminal with a vivid 5" color touch display and physical keypad, delivering an easy, familiar interface for payments on the go

Wireless Connectivity (Wi-Fi + 5G/LTE):

Equipped with Wi-Fi and 5G/LTE cellular connectivity, allowing you to accept payments anywhere in your store or off-site (tableside, curbside, events)

Versatile Payment Options:

Accepts EMV chip & PIN, magstripe, and contactless tap (EMV Contactless including Apple Pay/Google Pay) with built-in reader hardware

All-Day Battery & Printer:

Features a removable high-capacity battery for hours of continuous use and an integrated printer for receipts, making it ideal for mobile or line-busting scenarios

Rugged and Fast:

Durable "rigid wireless" design built to handle drops and constant use. A quad-core processor and ample RAM ensure quick transaction approvals and screen navigation

Secure PIN Entry:

Includes a secure PIN pad and is PCI-compliant, so PIN debit and other transactions are encrypted and protected. It's a full POS in the palm of your hand.
