

Dejavoo QD1

Wireless Android Terminal

Durable Mobile Terminal:

Built tough for on-the-go use, the QD1 features a rugged design ideal for field services, outdoor retail, or any environment where durability is a must

Multi-Connectivity:

Equipped with 4G LTE, Wi-Fi, and Bluetooth, ensuring you can process transactions in remote locations or on the move without interruption

Barcode Scanner & Camera:

Comes with an integrated 2D Zebra barcode scanner and a 5 MP camera, allowing merchants to scan product barcodes or QR codes for payments/inventory on the spot

Replaceable Battery:

Designed for long shifts, it has a removable high-capacity battery so you can swap in a spare and keep going through a full day of transactions

4" Touchscreen & Keypad:

Features a 4" color touch display for easy navigation plus a secure keypad for PIN entry, combining usability with security

Accepts All Payment Types:

Supports EMV chip-and-PIN, chip-and-signature, magstripe swipe, and NFC contactless payments, covering everything from traditional credit/debit to mobile wallets
