

Dejavoo QD3

Compact mPOS Terminal / PIN Pad

Pocket-Size Convenience:

A truly compact device (approximately 5" by 3") that fits in a pocket, QD3 is perfect for mobile businesses or as a customer-facing PIN pad at the counter.

4" Color Touchscreen:

Despite its small size, it has a 4" color LCD touch display (800×480) for clear prompts and receipts, so customers and staff can easily read transaction details

Wireless Connectivity:

Equipped with 4G LTE, Wi-Fi, and Bluetooth, allowing it to function as a standalone wireless terminal or tethered PIN pad with a point-of-sale system.

Fast and Secure:

Uses a secure Qualcomm-based processor and is PCI PTS 5.0 certified. Transactions process quickly, and the device can encrypt PIN and card data for safe transmission (excellent for semi-integration via SPIn).

Flexible Charging:

Charges via USB (5V adapter) or multi-unit charger, making it convenient to keep units powered. It's an ideal mobile POS for pop-ups, pay-at-delivery, or as a handheld checkout in retail aisles.

Full Payment Spectrum:

Supports EMV chip cards (Contact + PIN), NFC contactless (Visa payWave, MasterCard PayPass, Amex ExpressPay, Discover D-PAS), and magstripe, covering all modern payment methods
